CLIP-IN CEILING SYSTEM 暗架天花系統

10

DRAGON S101 Clip-in ceiling system is a saeled ceiling design. Each panel is clamped with the Spring tee runner (S-101) tightly to hide the suspension parts in the ceiling. Setting up together with DRAGON special light fittings and air-diffusers can give the best effect of the ceiling.

Suspension

The ceiling is suspended by Spring tee runner (S-101) which is fixed at the bottom of the C-channel (C-62) connected by Runner clamp (S-102) with distance 600mm centre to centre.

天龍牌 S101 暗架天花系統是一種密閉式的天花設計，採用夾入式三角龍骨 (S-101)，組成一幅隱閉式龍骨的平面天花。

吊掛系統

在圖B中，該系統主要由三角龍骨(S-101)懸掛整幅天花，使用三角龍骨吊碼(S-102)把三角龍骨扣於C型龍骨(C-62)的底部，每支三角龍骨距離中至中為600mm。

Model No. 型號	Dimension 規格尺寸
S1-300	300 x 300 mm
S1-500	500 x 500 mm
S1-600	600 x 600 mm
S1-3060	300 x 600 mm
S1-30120	300 x 1200 mm
S1-40120	400 x 1200 mm
S1-45120	450 x 1200 mm
S1-6090	600 x 900 mm
S1-60120	600 x 1200 mm

Model No. 型號	Parts Name 組件名稱
1. S1-Panel	Ceiling Panel 暗架天花板
2. S-101	Spring Tee Runner 三角龍骨
3. S-102	Runner Clamp 三角型龍骨吊碼
4. S-103	Runner Connector 三角型龍骨駁碼
5. C-62A	C-Channel Bracket C型龍骨吊碼
6. C-62	C-Channel C型副龍骨
7. S-106	Security Clip 防風碼
